

# Pirate Pairs

## How to Play

1. Cut out the cards carefully.
2. Arrange the cards face down in a space in front of you.
3. Player 1 turns over two cards and shows them to the others:
  - If the cards match, Player 1 keeps the cards and picks again.
  - If the cards don't match, Player 1 puts them back face down, where they were found and Player 2 has their turn.
4. The other players take turns and continue in this way until all the matching pairs have been found.
5. The player with the most pairs at the end wins.
